Climate & Prosperity

Michael Morrison, M.S.

Presented by:

Truro Recycling & Energy Committee

Wed, Oct 1, 2008, 7:30 PM - 8:30 PM

Discussion from 8:30 PM to 9:30 PM

FMI: Contact Bob Holt at 508-349-2120

Climate - Energy - Security - Prosperity - Civilization

FIRST IN A SERIES OF FREE WEDNESDAY EVENINGS AT THE LIBRARY ON
GREENING TRURO

FILMS, TALKS, DISCUSSIONS ON VITAL TOPICS

In this talk, Michael Morrison M.S., will review the current state of climate disruption; the economic, security, quality of life, and climate costs of fossil fuel combustion; and the roadmap to a rescued prosperity.

Trained by Al Gore, Michael Morrison, M.S., was the Scientific Coordinator for the Greenland Ice Sheet Project Two (GISP2). Involving over twenty-five US universities, GISP2 recovered a 2-mile ice core and a 100,000-year climate history from the Greenland Ice Sheet. The rapid and dangerous climate changes foretold in that and other records are now unfolding—all too quickly—around us.
